### Project Details

- **Project 1: ChatOnGo For Business**

- **Description:**

ChatOnGo is an enterprise social network that helps in employees engagement & team collaboration tool. ChatOnGo helps you get work done anywhere, anytime. You can even contribute and collaborate with your team on the go. You can create posts on one click within a group or post a poll. You can even schedule recurring posts periodically as per your needs. Chat feature allows you to connect with any co-worker for a quick one to one. We allow considerable browsing convenience with various filters related to date, people & category.

- **Project 2: Orbo Camera App**

- **Description:**

Orbo Camera is a fully featured and completely free Camera app for Android phones and tablets. Expose your camera's functionality: support for focus modes, scene modes, color effects, white balance, ISO, exposure compensation/lock, face detection, torch. Support for HDR (with auto-alignment and ghost removal). Support for Camera2 API (manual focus distance; manual ISO; manual exposure time; manual white balance temperature).

- **Project 3: Find Me Friends**

- **Description:**

Find My Friends be your friends tracker (and friendship saver) by telling you where your friend is located in real time, so you know what time they'll arrive. It can also provide navigation assistance, so you can help friends who are lost.

- **Project 4: Rapido ESS**

- **Description:**

This application helps employees stay connected to company anytime, from anywhere. Employees can Apply for leave by just one tap. They will get Notification on Leave Approval, Rejection. Also Employees can check their Clock in-out of whole year. They can fill Timesheet and also view them. Manger has privilege to additional three features. Mangers can Approve/Reject Leave Request, Swipe Mismatch Request and Timesheet Request of Employees.
